

Inventory Management

Course Name: Inventory Management

1 Hour

Certificate of Completion

CPD Credits: 1

Learn how to manage inventory to ensure the right supplies are available at the right quantity, quality and cost.

In this course we'll uncover how to set up a successful inventory management program to manage your lab supplies efficiently and effectively. You'll understand how the supply cycle works and how to effectively procure laboratory commodities. *(Included in the Lab Management Online course)*

MODULE DESCRIPTION:

Inventory Management: This module describes how to manage inventory efficiently and effectively to ensure increased productivity and decreased costs.

OUTCOMES:

- ✓ Understand the benefits and challenges of managing inventory
- ✓ Define and describe the supply cycle steps and describe how they interact with each other
- ✓ Determine requirements for procuring laboratory commodities
- ✓ Describe the elements of an inventory management programme
