

Building your Laboratory Team

★ Course Name: Building your Laboratory Team

🕒 1 Hour

✅ Certificate of Completion

📄 CPD Credits: 1

Gain key insight into how to build and develop an effective lab team.

In this course we'll provide you with the knowledge and understanding of the differences between a group and a team and how to help teams progress through the stages of team development. *(Included in the Lab Management Online course)*

MODULE DESCRIPTION:

Getting your Team Together: Effective teams generate synergy through a coordinated effort. This synergy may not always be present at the time that the team is formed. The team evolves through different stages before this synergy. This module focuses on the stages of team development and the different types of teams that can exist.

Building an Effective Team: Good teams don't just happen by accident. Therefore, it is important for the lab manager to understand the key elements of how to build an effective team. This module unpacks the components of a team charter and the training needs analysis process for building an effective team.

OUTCOMES:

You'll understand:

- ✓ Considerations for initiating the team charter
- ✓ Identifying the components of a team charter
- ✓ Considerations for selecting a team member
- ✓ How to train and develop the team
- ✓ How to motivate your team
- ✓ Managing diversity and conflict
- ✓ How to create an environment in which to thrive
